FESTIVAL OF MUSIC
at the ADELAIDE ENTERTAINMENT CENTRE

Last Wednesday 13th September our Festival of Music choir performed at the Adelaide Entertainment Centre. They were on stage with nearly 1000 other students from schools all over the state. It goes without saying that they proudly represented our school and all did a magnificent job. Congratulations to the students and thank you to parents for transporting students there and watching them perform. The choir will continue to rehearse for the remainder of the year, singing songs of their choice and preparing for local performances. I look forward to teaching choir again next year and encourage any Year 5, 6 and 7 students to get involved.
Dave Remfry

Tea Time at Mambray Creek Camp

Friendly reminder
End of Term Assembly is on Thursday next week at 10am as Wednesday is a School Closure day for the YP Field Days.
Congratulations to the victorious Broughton-Mundoora Senior Colts and well done to the other football and netball teams that made it to the Grand Final.

Currently our year 8/9 students, along with Nick Turra, Ros Harris and Justin Brook are bushwalking in Mambray Creek. We hope the weather has been treating them well and look forward to hearing about their adventures. Before the end of the term, students in years 3-10 will complete PAT (progressive achievement tests) in reading and mathematics. PAT tracks individual student development from years 3 to 10 and helps teachers and schools compare their growth against the growth expected for their year level.

Term 3 reports will be coming home on Thursday 28th of September for students in years 7-12. Interviews will be held in week one (Tuesday 17th and Thursday 19th) of term 4 for secondary students. Individual subject teachers may have requested an interview (via the report) or parents may request to see a teacher. We will be using the Parent Portal in Sentral to book interview times. If you have difficulties making a booking, or need to arrange an alternative time to meet with your child’s teachers, please contact the school.

There is no online booking for primary interviews this time; however, we are always happy to discuss your child’s progress or any concerns you may have. Appointment times can be arranged by speaking directly with your child’s teacher.

As we start planning for 2018, it is important for us to have an idea of student numbers. If there are families planning to enrol, or if you know your child will not be attending Port Broughton Area School in 2018 please let us know. We will respect your privacy and confidentiality around this, but it is important we factor this into our planning.

Please don’t forget that Wednesday next week (27th) is a school closure day for the YP Field Days.

Joelene Wilden
Acting Principal

Provide First Aid

Year 11 students have the opportunity to complete “Provide First Aid” on Friday 1st December

The course will give students the skills and knowledge required to provide First Aid response, life support and management of casualties in a range of situations, including in the home, workplace or within the community.

There will be limited places available for community members to access this training.

Please contact Joelene Wilden if you would like to register.
The year 9 students have been revising measurement concepts such as calculating the perimeter and area of composite shapes including surfaces.

Using their understanding of area, students could calculate the total surface area of rectangular prisms, pyramids, and cylinders. To determine their ability to measure and calculate the surface area of a rectangular prism, the students selected a piece of sponge cake.

After measuring the cake and calculating the surface area, students iced the piece and decorated it with Smarties to resemble a Rubric cube. Admittedly due to the rectangular shape, it was not a perfect cube.

Tanya Hacket
Year 9 Science Teacher
This term the Reception/Year 1 class visited some of the residents at Barunga Village. We asked questions about what it was like when the residents went to school, what toys and games they played with and jobs they did at home. We learnt lots of interesting things and noticed that there are some things the same and some things that are very different. It was great fun getting to ask questions and learn about other people.

‘After school, some people had to chase the cows and bring them in!’ - William and Brodie
‘They had to do Maths and writing at school and we do that too.’- Lucas and Zaid
‘Some people had pet kangaroos!’ - Tarquin and Grace
‘Almost everyone said ice cream is their favourite food!’ - Nicole and Hannah
‘After school, some people went for a swim at the jetty instead of going home!! I would get in trouble if I did that!’ - Amelia and Archie

‘Some people had to ride their horse home from school. We walk or get the bus.’ - Nathan and Emily
‘At school, they used feathers to write.’ - Sammy
‘Some people thought it was special to listen to the radio at school.’ - Maya
‘Some people had lots of birds for their pets.’ - Max and Byron
This term the ‘Little Bang Discovery Club’ ran in the Community Library. It was held for children aged 3-5 years old with an aim to increase interest and participation in early years STEM learning. Each child took home a discovery box full of science objects for the 4 week duration. There were activities based on sorting, collecting, measuring, observing and predicting. The table top experiments, with eggs, balloons, electricity globes, magnets and sound tubes just to name a few, were lots of fun.

Thank you to everyone who came along and joined in the fun. There are lots of photos to see when you’re in the Library next!
